**Janet Lundsten** I got there in the back of a pick up.

**Lynette Kauffman Plank** What great memories! I remember during one bus trip from DCC to Salem, the gas pedal kept falling off...the bus driver finally asked me to crawl under the steering wheel to see if I could reattach it. And all this took place while we were cruising down the highway!

**Brian Leichty** I can remember riding on top of all of the Sleeping Bags and Suitcases and Pillows in the back of the bus one of the years that I attended, but I don't remember what year it was.

**Don Bacher** I remember taking our son to Salem Mennonite to catch the bus to camp. Remember him telling us how they counted the curves going in to camp. I think my first introduction to Willard Kennel was during this time as he was the bus driver.

**Jeff Roth** Nick wondered the same thing... and yes, they were in the same grade. He wondered if maybe she rode along because Floyd or Claudia would have driven the bus out (since it was from 91 school)?

**Ken Roth** Well.... since I'm older..... I think..... The bus was most likely driven by Harold Bender and not form 91
